

ORANGEVILLE HEARING CLINIC / ALLISTON AUDIOLOGY
Kirchberger Audiology Prof. Corp.

It's a Girl!

Candace Thom, administrative assistant in Alliston, has not been AWOL but rather Absent With Maternity Leave.

Violet Thom was born on July 10, 2013. Both mom and Violet are doing well. I know you will join us in wishing the family well.

Eric Irvine, Audiologist

Silver Anniversary

How time flies!

It seems like yesterday that Orangeville Hearing Clinic and Alliston Audiology began providing audiology services.... but it has been 25 years. Established in 1988, Orangeville Hearing Clinic continues to operate in the same location. Carolyn Martin, CDA and hearing aid dispenser, remembers her first year in 1990. "Orangeville's population was less than 10, 000 and had a real small-town feel." Alliston Audiology began shortly thereafter at Stevenson Memorial Hospital and, in

Welcome Eric Irvine, Audiologist

Orangeville Hearing Clinic and Alliston Audiology is pleased to announce the addition of Eric Irvine, Audiologist, who began seeing patients in August

2013. Many of you may already know Eric because he has worked with us before and during his Audiology Degree from Western University

2008, moved to Windsor House on Victoria street.

Seeing the same faces is a part of our DNA. Peter Kirchberger, Doctor of Audiology, has been providing audiology services since 1998. Alison Thornton, administrative assistant, joined us in 2001 in Orangeville.

Many thanks to all our patients! It has been a pleasure providing audiology and hearing aid service for 25 years.

(formerly University of Western Ontario). We look forward to having Eric Irvine with us for many years.

Did You Know?

Hearing aid technology continues to race forward and the latest features include wireless capabilities that allow hearing aids to connect to TVs, cell phones, computers and many BlueTooth® devices.

New Test

We are pleased to offer an audiological test that assesses your ability to hear speech in noise. The **QuickSIN**® (Speech-In-Noise) test can assist with determining difficulty hearing in noise and then choose hearing aid features and hearing aid accessories.

Don't miss out on the important things...
